

Fitur (note: code tidak included, bisa cek di source code)

1. Tanggal lahir dimasukkan dengan menggunakan datepicker

The image shows a web form titled "Tanggal Lahir" (Date of Birth). It features a text input field with the placeholder "dd/mm/yyyy" and a dropdown arrow. Below the input field is a calendar widget for "April 2018". The calendar has a table of dates with the following structure:

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	1	2	3	4	5

Navigation buttons for the calendar are located above the table, and vertical scrollbars are on the right side.

2. Id prodi pada tambah mahasiswa dilakukan dengan memilih dari dropdown list

The image shows a dropdown menu labeled "Prodi". The menu is open, displaying a list of program names. The first item, "Teknik Geologi", is checked with a small icon. The second item, "Meteorologi", is highlighted with a blue background. The other items are "Matematika", "Fisika", "Seni Rupa", and "Desain Interior". A downward arrow is visible at the bottom of the menu.
